COMMERCIAL CONSTRUCTION
FOCUS

FL

PROJECTS SERVED THROUGHOUT
FLORIDA

BUILT ON EXPERIENCE. DRIVEN BY DEPENDABILITY.

A growing company backed by proven commercial construction leadership.

COMMERCIAL. PROFESSIONAL. DEPENDABLE.

WHO WE ARE

Crossroads Construction of Florida LLC specializes in metal framing, drywall installation and hanging, drywall finishing, acoustical ceilings, FRP installation, demolition, and commercial renovations.

We show up prepared, communicate professionally, work safely, respect the schedule, and deliver quality workmanship.

OUR MISSION

Deliver high-quality commercial construction services with integrity, professionalism, and safety while building lasting partnerships through dependable performance and exceptional workmanship.

OUR VISION

Become one of Florida's most trusted commercial construction subcontractors through consistent quality, safe work, and performance that exceeds expectations.

OUR VALUES

01

INTEGRITY

Honest, ethical, and transparent.

02

SAFETY

Responsible, OSHA-focused work practices.

03

QUALITY

Attention to detail and project requirements.

04

RELIABILITY

Professional coordination and execution.

05

TEAMWORK

Respect, collaboration, and strong relationships.

WHY CROSSROADS

Experience you can trust. Performance you can depend on.

"DEPENDABILITY IS NOT A CLAIM. IT IS THE WAY THE WORK GETS DONE."

01 EXPERIENCED LEADERSHIP

More than 20 years of combined commercial construction experience.

02 FULLY INSURED OPERATIONS

Responsible business practices and professional protection on every project.

03 SAFETY-FOCUSED EXECUTION

Planning, awareness, accountability, and respect for the active jobsite.

04 SKILLED, DEPENDABLE CREWS

Teams focused on workmanship, productivity, and professional conduct.

05 SCHEDULE-CONSCIOUS PERFORMANCE

Coordination and execution designed to support project milestones.

06 CLEAR COMMUNICATION

Responsive coordination with the complete commercial project team.

07 QUALITY WORKMANSHIP

Attention to plans, specifications, visible details, and final finish.

08 PARTNERSHIP APPROACH

Relationships designed to continue beyond the final punch item.

COMMERCIAL INTERIOR CONSTRUCTION SERVICES

A coordinated range of services for new construction, build-outs, tenant improvements, renovations, and repairs.

01

METAL FRAMING

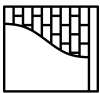

Light-gauge framing for walls, partitions, soffits, and interior assemblies.

02

DRYWALL INSTALLATION

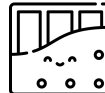

Complete commercial drywall systems coordinated to project requirements.

03

DRYWALL HANGING

Efficient board placement and fastening by experienced commercial crews.

04

DRYWALL FINISHING

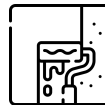

Level 4 and Level 5 finishing for consistent, decoration-ready surfaces.

05

ACOUSTICAL CEILINGS

Suspended grid and acoustical panel installation for commercial spaces.

06

FRP INSTALLATION

Durable, cleanable wall protection for high-use environments.

07

INTERIOR DEMOLITION

Controlled selective demolition for renovations and reconfiguration.

08

REPAIRS & RENOVATIONS

Professional repair, refresh, and interior improvement support.

ONE TRADE OR COORDINATED SCOPES

Send plans, scope, schedule, and bid requirements for review.

SERVICE 01

METAL FRAMING

Built for precision, coordination, and performance.

Crossroads installs commercial light-gauge metal framing systems that create the structure for well-coordinated interior spaces.

We work from project plans and field conditions to support the next trade, the specified finish, and the overall schedule.

SCOPE INCLUDES

- Interior walls and partitions
- Door and window openings
- Soffits, bulkheads, and ceiling features
- Furring and interior framing assemblies
- Backing, blocking, and trade coordination
- Renovation and tenant improvement modifications

COMMERCIAL CONSTRUCTION FOCUS

SERVICES 02 + 03

DRYWALL INSTALLATION + HANGING

DRYWALL INSTALLATION

COMPLETE SYSTEMS. CLEAN EXECUTION.

Commercial drywall installation for walls, ceilings, build-outs, renovations, and tenant improvements.

- New construction and interior build-outs
- Project-specific drywall assemblies
- Repairs, patches, and replacement
- Integration with framing and finishing

DRYWALL HANGING

PRODUCTIVITY THAT SUPPORTS THE SCHEDULE.

Experienced commercial crews focused on organized material flow, consistent installation, and dependable coordination.

- Wall and ceiling board placement
- Board layout and fastening
- Openings and penetrations
- Large commercial interiors
- Organized work areas

FINISHES THAT COMPLETE THE SPACE

Smooth surfaces above. Clean lines overhead.

SERVICE 04 / DRYWALL FINISHING

SERVICE 05

ACOUSTICAL CEILINGS

Suspended ceiling grid and acoustical panel installation with careful layout, clean perimeter conditions, and multi-trade coordination.

LEVEL 4 & LEVEL 5

COMMERCIAL DRYWALL FINISHING WITH ATTENTION TO EVERY SURFACE.

Our finishing crews focus on consistency, detail, and surface preparation so the completed work is ready for the specified decoration and lighting conditions.

- Joint and fastener finishing
- Inside and outside corners
- Level 4 drywall finishing
- Level 5 skim-coat finishing
- Grid and acoustical panels
- Perimeter trim and edge coordination
- Lighting, diffuser, sprinkler, and access coordination
- Repairs and targeted replacement

SERVICE 06

FRP INSTALLATION

**DURABLE. CLEANABLE. PROFESSIONALLY
FINISHED.**

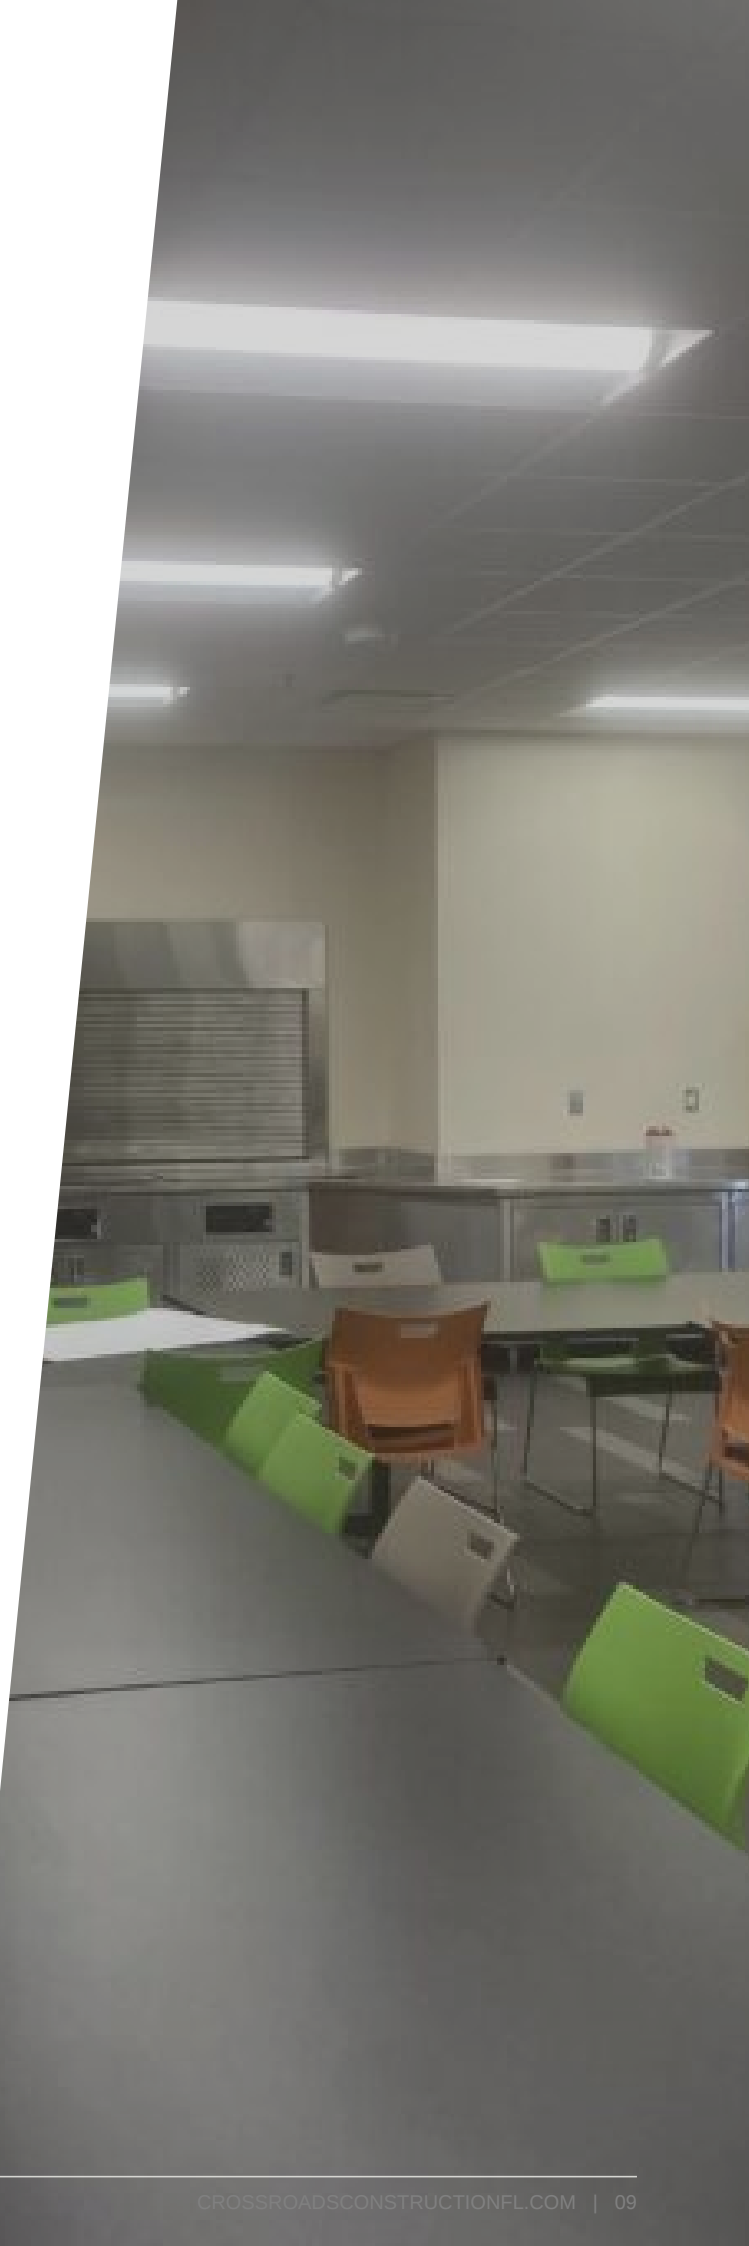

Fiberglass reinforced panels protect commercial walls in spaces exposed to frequent use, moisture, cleaning, and impact.

SCOPE INCLUDES

- Panel layout and field cutting
- Corners, dividers, caps, and trim
- Doors, fixtures, and penetrations
- Replacement and repair
- Final detail review and cleanup

IDEAL FOR

**Commercial kitchens | Healthcare | Food service |
Restrooms | Utility spaces | Industrial facilities**

PREPARE. REPAIR. RECONFIGURE.

Selective demolition and professional commercial renovation support.

SERVICE 07

INTERIOR DEMOLITION

Controlled selective removal for renovations, tenant improvements, repairs, and interior reconfiguration.

SERVICE 08

REPAIRS & RENOVATIONS

Professional repairs, refreshes, tenant improvements, and reconfiguration with attention to the surrounding finish.

BUILT AROUND EXISTING CONDITIONS

THE SPACE CHANGES. THE STANDARD DOES NOT.

Our team reviews the defined scope, access conditions, adjacent areas, protection needs, and follow-on work before execution.

- Selective walls and ceilings
- New openings and reconfiguration
- Drywall, ceiling, and FRP repairs
- Targeted demolition and reconstruction
- Tenant improvement and refresh scopes
- Finish restoration and punch work

HOW WE WORK

A CLEAR, COLLABORATIVE PROJECT APPROACH.

From the first plan review through closeout, each step is designed to support safety, schedule, communication, and quality.

01

REVIEW

Plans, scope, schedule, access conditions, and bid requirements.

02

PLAN

Manpower, materials, sequencing, safety expectations, and project needs.

03

EXECUTE

Productivity, craftsmanship, housekeeping, and professional conduct.

04

COORDINATE

Responsive communication with the project team and adjacent trades.

05

COMPLETE

Final details, contracted punch items, and closeout support.

SAFETY FIRST. QUALITY ALWAYS.

Standards that support every project.

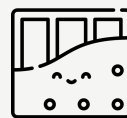

Safety and quality are not separate from production. They are part of how the work is planned, coordinated, installed, reviewed, and closed out.

SAFETY

PLANNING, AWARENESS, AND ACCOUNTABILITY.

- Review project safety expectations
- Plan access, sequencing, tools, and materials
- Stay alert to changing jobsite conditions
- Maintain professional work practices
- Keep organized, clean work areas
- Coordinate with project leadership and trades

QUALITY

QUALITY BEGINS BEFORE INSTALLATION.

- Understand scope, plans, and specifications
- Coordinate openings, transitions, and interfaces
- Install with experienced craftsmanship
- Review progress and correct issues early
- Maintain visible finish consistency
- Close out final details responsibly

ACCOUNTABILITY YOU CAN BUILD ON

Our work affects the schedule, the next trade, the finished environment, and the reputation of the complete project team.
